

# BLEED!

If any object/element in your document is in contact with the edge of the page then you'll need to add BLEED, and extend the same object so that it is larger than your finish/trim size (minimum of 3mm bleed required).

## Example -

In the image below both the grey box and image extend outside the crop marks. Whilst the text below them doesn't as it isn't in contact with the edge of the page.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Maecenas tempor vestibulum ultricies. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Curabitur neque libero, congue quis posuere quis, mattis at lectus. Nulla in ante a nibh pulvinar fermentum. Curabitur dictum pharetra diam, non pharetra ante mollis a. Cras vulputate, augue a viverra commodo, sapien nulla iaculis justo, at interdum urna turpis at dui. Mauris in erat diam. Suspendisse potenti.

Vivamus tellus odio, lobortis vitae volutpat eu, congue sit amet nunc. Mauris sed bibendum lectus. Nunc posuere consectetur ligula non tincidunt. Fusce magna justo, consectetur vitae lacinia accumsan, cursus in diam. Duis vel ante ipsum.
